DISCLAIMER

This publication contains the proceedings of the combined meeting of the Symposium on Surface Mining and Reclamation on the Great Plains and the American Society for Surface Mining and Reclamation. Speakers were asked to submit camera-ready copy for this publication. Because of the schedule for printing, the chairmen were unable to edit the texts and apologize for any errors in the copy or poor reproduction of figures or tables.

Several papers were not received in time to be included in this publication; thus, the lack of conformity between the Agenda of the Symposium and this published proceedings was unavoidable.
